

Ludlow and District Beekeepers Association

All about information produced by the National Bee Unit (part of FERA).

See <https://nationalbeeunit.com> for their information for beekeepers.

Specifically, they publish guidance on bee disease, its management and legal implications.

The following four are required reading for all beekeepers.

Managing Varroa <https://nationalbeeunit.com/downloadDocument.cfm?id=1389>

Foulbrood diseases (AFB and EFB)

<https://nationalbeeunit.com/downloadDocument.cfm?id=7>

Small Hive Beetle

<https://nationalbeeunit.com/downloadDocument.cfm?id=17>

Asian Hornet

<https://nationalbeeunit.com/index.cfm?pageid=370>

ID poster:

<https://nationalbeeunit.com/downloadDocument.cfm?id=1224>

Information regarding the statutory background to bee disease and related issues can be found here:

<https://nationalbeeunit.com/index.cfm?sectionid=79>

and on the import and export of bees can be found here:

<https://nationalbeeunit.com/index.cfm?pageId=126>

This is correct as of March 2023 and may change at any time in the future, so please check here if you are considering this activity.
